The purpose of this third meeting is to provide the SAC with an opportunity to review and comment on the preliminary alignments developed for the project. This interaction will help ensure the full range of issues related to the PD&E Study are addressed and all significant project issues are identified. Public participation is solicited without regard to race, color, religion, sex, age, national origin, disability or family status. Should you have any questions about the project, or if you would like to request additional information, please contact Tony Sherrard, FDOT Project Manager at (863) 519-2304.
